PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 10+ years designing, building, and leading complex production web applications across insurance, healthcare, and B2B commerce. Currently lead developer of a live Scandinavian dental-insurance platform — owning architecture, delivery, and client requirements while mentoring developers. Strong in Laravel, PHP, React, Vue 3, Nuxt, MySQL, and REST/GraphQL APIs, turning complex business logic into reliable, maintainable systems. Comfortable gathering and delivering requirements directly with international clients.

CAREER HIGHLIGHTS

- Lead developer of Dansk Tandforsikring, a live dental-insurance platform — own system architecture, delivery, and client requirements, and mentor other developers.
- 10+ years of full-stack engineering across insurance, healthcare, and B2B commerce, primarily with Laravel and Vue / Nuxt.
- Proficient English; regularly gather and deliver requirements directly with international clients.

TECHNICAL SKILLS

Backend: PHP, Laravel, RESTful APIs, GraphQL, MySQL

Frontend: Vue.js (Vue 3), Nuxt.js, React, TypeScript, JavaScript, HTML5, CSS3, Bootstrap

Architecture & Practices: Application architecture, database design, API design & integration, MVC, Git, Agile team collaboration

Also worked with: jQuery, Blade, Ionic, WordPress

PROFESSIONAL EXPERIENCE

Tech Scale — Senior Software Engineer *Apr 2020 – Present*

techscale.io

- Lead development, architecture, and client delivery of **Dansk Tandforsikring** (danskstandforsikring.dk), a live dental-insurance platform covering quotation, agreements, digital signatures, broker management, and subscriptions; mentor developers and own technical decisions across the stack. Built with Laravel, React, WordPress, MySQL, and REST APIs.
- Contributed to system architecture, database, API, and integration decisions as part of a senior team on **Yellow Beard** (shop.yellowbeard.com), a unified B2B coffee platform combining e-commerce, CRM, technician service, and sales.
- Built **Auto Secure** (wingwarranty.satcar.dk), a car-insurance and warranty platform streamlining the flow from vehicle selection to payment, with configurable coverage, repairer preference, and flexible payment plans.
- Work across Laravel, React, Vue 3, Nuxt, TypeScript, GraphQL, REST APIs, MySQL, and WordPress, with a dedicated DevOps team handling deployment.

Universal Medical Professionals — Software Engineer (Full-Stack) *Jan 2018 – Mar 2020*

mebilling.com

- Developed **ME Billing** (mebilling.com), an EMR web application managing patient records, claims, payments, appointments, and reporting for healthcare providers.
- Built full-stack features with Laravel, Vue, and MySQL, focusing on the accuracy and reliability of clinical and billing data.

Syntax Bay — Web Developer *Mar 2017 – Dec 2017*

syntaxbay.com

- Developed **Provide IT Pro** (provideitpro.com), a B2B tendering platform where companies post tenders and customers bid, delivered as Laravel web and Ionic hybrid-mobile applications.
- Built the back end and REST APIs with Laravel and MySQL, and the mobile app with Ionic.

Aliens Tech — Web Developer *Mar 2016 – Feb 2017*

aliens-tech.com

- Developed web applications using Laravel and MySQL, building responsive user interfaces with HTML5 and CSS3.

EDUCATION

Bachelor of Computer Science (BSCS) *2010 – 2016*

Virtual University of Pakistan
